## LIKE YOUR BOAT, LIFEJACKETS REQUIRE REGULAR ATTENTION AND CARE.

Get the most wear out of your lifejacket by storing it in a clean, dry place. Whether you have a foam or inflatable lifejacket, it is good practice to rinse it out with fresh water and dry it after each use – so it's ready for the next outing.

Take extra care with auto-inflating lifejackets. With all inflatable lifejackets, check the manufacturer's instructions for care, maintenance and service.

### **Servicing of your inflatable lifejacket**

Inflatable lifejackets must be serviced in accordance with the manufacturer's instructions. Some manufacturers allow you to self-service but you must follow their instructions and record the service details.
